Powerhouse of Opportunities

## The Intex India Advantage

Intex India empowers industry players to **explore new business horizons and nurture Indian and global relationships**. Hence, Intex has leveraged this strategy into opportunities by consolidating the entire industry across verticals onto one platform.

**Fulfilling the growing demand** for innovative fabrics, textile accessories and allied services for one of the biggest apparel manufacturing regions in the world, Intex India is the one-stop sourcing show for both apparel exporters as well as domestic manufacturers and suppliers of apparel.

With exhibitors from Hong Kong, Korea, Vietnam, UAE, UK, Germany and the US, as well as international buyers from 13 countries and domestic buyers from across the country, Intex India is the international business connector for Indian textile & apparel businesses looking to **connect with global suppliers**.

## Featured Events

Knowledge Partner

### Intex Textile Conclave (ITC) - Inspiration & Innovation exchange

Intex India also serves as a platform for unveiling latest industry information, product knowledge and product launches curated for the Indian textile & apparel industry. ITC is the flagship event held concurrently with Intex India where inspiration and market intelligence converge, enabling global industry experts to present their insights to industry stakeholders across India and the wider region. The event will present speaking sessions, presentations and panel discussions by eminent industry professionals from across the textile supply & value chain.

**DAY 1 - 07th December, 2023, Hall 1C, Yashobhoomi (IICC), Dwarka, New Delhi  
Time - 2.30 pm to 5.00 pm**

### THEME : FIBRES OF FASHION: REIMAGINING THE FUTURE OF TEXTILES

#### Session-1 Fibres of Change:

### Mapping India's Fiber Market on a Global Canvas

Discussing the fiber market dynamics in India within a global perspective involves providing a comprehensive analysis of market size, consumption trends including the competitive landscape of different fibres and future outlook, also understanding of the international trade dynamics.

**Chandrima Chatterjee**  
Secretary General, CITI  
(Moderator)

**Sanjay K Jain**  
M.D, T T Ltd,  
Chairman,  
ICC National Textiles Committee  
and Past Chairman – CITI/TSC/NITRA

**Ujwal Lahoti**

**Hontai Global:** Hontai is a leading chemical exporting and technical consultation company for titanium dioxide pigments production in Hong Kong and mainland China. Established in 2018, Hontai Global has become a bridge between mainland producers of titanium dioxide products and overseas customers. The company's mission is to provide the best quality products to our customers and at the same time give timely feedback of customers and clients' requirements to the manufacturers. Hontai plays the role of an intermediary while ensuring interests of both buyers and sellers.

## HK-700

Main Uses:  
Polyester and masterbatches

### Description

The production process uses water-based organic materials, which need not be separated by an ultrafilter. HK-700 is a high-quality titanium dioxide pigment with high performance masterbatches.

**Appearance**

White Powder

**Crystal Structure**

Anatase

**Main Uses**

Polyester (Fibre, Textile, Paper, Film) and masterbatches

**Key Features**

Good Dispersibility and Ultraviolet

### Specification

Items	Unit	Index
TiO <sub>2</sub>	%	≥ 98.8
Water V.	%	≤ 0.1
Sieve Residue (535 Mesh)	%	≤ 0.01
Oil Absorption	g/100g	≤ 12
P. of Water Suspension		6.5 - 6.7
TiO <sub>2</sub> Reduction Power	%	≥ 100
Specific Resistance	Ω.cm	≥ 40000
TiO <sub>2</sub> s	%	≥ 99.997
Brightness	%	≥ 98
	%	≥ 99
Average Particle Size	nm	0.26 - 0.28

**Arise IIP:** Unlocking manufacturing opportunities in Africa, ARISE IIP designs, finances, builds and operates integrated and tailor-made industrial zones with high added value. Arise IIP identifies industrial gaps in African countries that unlock value and create new industries. Our aim is to industrialize key sectors by creating local transformation, maximizing production, efficiency and cost, which in turn generates local value addition. Our trusted partnerships with governments and investors enable us to execute large-scale projects that transform local value chains and industrialize countries in an environmentally sustainable way. Our tailor-made special economic zones in Gabon, Benin and Togo seek to boost exports, enable the local transformation of raw materials and promote trade.
